To: Members of OIML TC 6/ p5

Dear Project Group Members

OIML/ TC6/ p5/ GCOP/ CD1 – REQUEST FOR COMMENT

Welcome to all new members of this project group.

The project group will be responsible for developing a guidance document for defining the system requirements for a certification system for prepackages. The secretariat will appreciate your valuable input and advice in developing this “best practice” guide.

Attached to my e-mail please find the following documents:

- a) The new publication OIML/ TC6/ p5/ GCOP/ CD1 dated 19 June 2014.
- b) Template to be used for the submission of comments.
- c) Agenda for the next TC 6 to be held in Seoul, Korea.

The secretariat is aware of the fact that there is limited time available for comment on this guide before our meeting takes place on 18 September 2014. However, to enable the project group to have productive discussions in Korea, the secretariat kindly requests members to submit their comments by 5 September 2014. This will enable the secretariat to collate all comments received and to circulate them to all attendees.

Please note that every member country should make a short presentation at the meeting as indicated on the agenda. The presentation should cover the system and operational requirements for the certification system for prepackages that currently exists in respective member countries.

Yours faithfully

Jaco Marneweck
OIML TC 6 Secretariat
