## 1 Introduction

1.1 OIML B 18 *Framework for the OIML Certification System (OIML-CS)* [1] establishes the rules for a framework for the OIML-CS. OIML B 18 [1] is supplemented by Operational Documents OD-01 [2] and OD-02 [3], and Procedural Documents PD-01 to PD-08 [4]-[11].

1.2 The Maintenance Group (MG) of the OIML-CS Management Committee (MC) is responsible for developing and maintaining the OIML-CS documents. The MC approves the Operational Documents and Procedural Documents, and the International Committee of Legal Metrology (CIML) approves OIML B 18 [1].

1.3 To avoid multiple editions of the OIML-CS documents where potential improvements or modifications have been identified, this document has been developed to provide a single point of reference for clarifications and interpretations of the OIML-CS documents. This document has been developed by the MG and approved by the OIML-CS MC. From time-to-time, the clarifications and interpretations will be incorporated into a new edition of the relevant OIML-CS document.

1.4 The OIML-CS documents are available from the OIML website at:

## 2 Scope

2.1 This document provides clarifications and interpretations of OIML B 18 [1], Operational Documents OD-01 [2] and OD-02 [3], and Procedural Documents PD-01 to PD-08 [4]-[11] agreed by the MC.

2.2 The clarifications and interpretations provided in this document are intended as guidance and additional information and do not supersede the text in the current edition of the relevant OIML-CS document. These clarifications and interpretations may be incorporated into future editions of the relevant OIML-CS documents.

For example, OIML R 117:2019 <i>Dynamic measuring systems for liquids other than water Part 3: Test report format</i>.</p> <p>All new and revised OIML Recommendations must be published in at least four Parts, with the OIML test report format and the OIML type evaluation report format as separate Parts of the Recommendation. For more information see OIML B 6:2019 <i>Directives for OIML technical work. Part 1: Structures and procedures for the development of OIML publications</i>.</p> <p>Regardless of the structure of an OIML Recommendation, an OIML test report is issued by an OIML Test Laboratory, and an OIML type evaluation report is issued by an OIML Issuing Authority.</p>	Eighth Management Committee Meeting 2023 – Action Item 8.8
