Foreword

This publication has been prepared by the OIML Certification System (OIML-CS) Executive Secretary.

Edition 7 of OIML-CS CID-01 was approved for publication by the OIML-CS Management Committee by online ballot on 04 September 2026 and was published on 10 September 2026. This edition takes effect immediately upon publication.

This publication is directly related to OIML B 18 *Framework for the OIML Certification System (OIML-CS)* and the Operational Documents and Procedural Documents of the OIML-CS.

The text of this publication is based on the following documents:

Edition	Document	Report on Voting/Acceptance
CID-01 Edition 1	CID-01 Edition 1	Published March 2020
CID-01 Edition 2	CID-01 Edition 2	Published 26 February 2021
CID-01 Edition 3	CID-01 Edition 3	Published 10 June 2021
CID-01 Edition 4	CID-01 Edition 4	Published 14 November 2022
CID-01 Edition 5	CID-01 Edition 5	Published 11 March 2024
CID-01 Edition 6	CID-01 Edition 6	Published 19 September 2024
CID-01 Edition 7 (draft)	OIML-CS_SC3_P1_SG1_N036	Draft for MG 20260520
CID-01 Edition 7 (draft)	OIML-CS_SC1_P4_N182	Draft for MC 20260804

Summary of changes from previous Edition:

Document	Clauses/subclauses	Change
CID-01	3	A new clause 3 is included to clarify references between all OIML-CS documentation.
B 18	11.6.2	Editorial correction.
PD-05	4.3 and 5.3	Clarification added to PD-05 and removed from CID-01.
PD-07	7.2.1 a)	Interpretation added.

1 Introduction

1.1 OIML B 18 *Framework for the OIML Certification System (OIML-CS)* [1] establishes the rules for a framework for the OIML-CS. OIML B 18 [1] is supplemented by Operational Documents OD-01 [2] and OD-02 [3], and Procedural Documents PD-01 to PD-09 [4]-[12].

1.2 The Maintenance Group (MG) of the OIML-CS Management Committee (MC) is responsible for developing and maintaining the OIML-CS documents. The MC approves the Operational Documents and Procedural Documents, and the International Committee of Legal Metrology (CML) approves OIML B 18 [1].

1.3 To avoid multiple editions of the OIML-CS documents where potential improvements or modifications have been identified, this document has been developed to provide a single point of reference for clarifications and interpretations of the OIML-CS documents. This document has been developed by the MG and approved by the OIML-CS MC. From time-to-time, the clarifications and interpretations will be incorporated into a new edition of the relevant OIML-CS document.

1.4 The OIML-CS documents are available from the OIML website at:

<https://www.oiml.org/en/oiml-cs/documentation>

2 Scope

2.1 This document provides clarifications and interpretations of OIML B 18 [1], Operational Documents OD-01 [2] and OD-02 [3], and Procedural Documents PD-01 to PD-09 [4]-[12] agreed by the MC.

2.2 The clarifications and interpretations provided in this document are intended as guidance and additional information and do not supersede the text in the current edition of the relevant OIML-CS document. These clarifications and interpretations may be incorporated into future editions of the relevant OIML-CS documents.

3 References to OIML-CS documents

Within all OIML-CS documents, where a reference is made to another OIML-CS document, it should be taken to be a reference to the latest edition of the OIML-CS document that is available from the [OIML website](#). An archive of previous editions of OIML-CS documents is available on the OIML website for informative purposes.

4 Clarification and interpretations

4.1 OIML B 18 [1]

Clause/ Subclause	Paragraph/ Figure/Table	Clarification/Interpretation	MC Decision Reference
4.2	Note	At the time of writing many existing OIML Recommendations are published in three Parts, with the OIML test report format and the OIML type evaluation report format combined as a single Part of the Recommendation. For example, OIML R 50:2014 <i>Continuous totalizing automatic weighing instruments (belt weighers). Part 3: Test report format</i> All new and revised OIML Recommendations must be published in at least four Parts, with the OIML test report format and the OIML type evaluation report format as separate Parts of the Recommendation. For more information see OIML B 6:2023 <i>Directives for OIML technical work. Part 1: Structures and procedures for the development of OIML publications.</i> Regardless of the structure of an OIML Recommendation, an OIML test report is issued by an OIML Test Laboratory, and an OIML type evaluation report is issued by an OIML Issuing Authority.	Eighth Management Committee Meeting 2023 – Action Item 8.8
11.6.2	c)	There is a minor omission from the clause with respect to OIML Issuing Authorities. The text of the clause should be written as follows: make recommendations to the Management Committee on the validation of the Legal Metrology Experts and Management System Experts who will participate in accreditation or peer assessments of test laboratories, and OIML Issuing Authorities, and This clause will be corrected at the next revision of OIML B 18.	MC approval of this edition of CID-01

4.2 Operational Documents OD-01 [2] and OD-02 [3]

Operational Document	Clause/ Subclause	Paragraph/ Figure/Table	Clarification/Interpretation	MC Decision Reference
-	-	-	-	-

Note: There are currently no clarifications or interpretations applicable to OD-01 [2] or OD-02 [3].

4.3 Procedural Documents PD-01 to PD-09 [4]-[12]

Procedural Document	Clause/ Subclause	Paragraph/ Figure/Table	Clarification/Interpretation	MC Decision Reference
PD-03	5.2.2 & 5.2.3.5		At the Fourth Management Committee Meeting in June 2020 the Management Committee agreed to a set of contingencies to ensure that the OIML-CS could continue to function during the COVID pandemic. These contingencies were as follows: • Allowing the use of experts from accreditation bodies instead of Legal Metrology Experts. • Allowing remote assessments of OIML Issuing Authorities and Test Laboratories.	Online approval of revised OIML-CS Procedural Documents (Closing date 15 January 2024)
PD-04	5.2.2 & 5.2.3.5		As of 15 January 2024, the Management Committee has agreed to <u>revoke</u> the above contingencies. All assessment activities are to be conducted in accordance with the rules and requirements of the relevant Accreditation Body and the OIML-CS. Amendments have been made to OIML-CS PD-03 and OIML-CS PD-04 to provide additional flexibility to support the operational continuity and efficiency of the OIML-CS; particularly in the case of any future international travel restrictions that would impede the operation of the OIML-CS.	

Procedural Document	Clause/ Subclause	Paragraph/ Figure/Table	Clarification/Interpretation	MC Decision Reference
PD-03	5.1		At all times, the scope of an OIML Issuing Authority must be supported by an approved Test Laboratory (listed in the OIML Issuing Authority's Declaration) for each category of measuring instrument included within that scope. As such, every OIML Issuing Authority application must be supported by use of an existing Test Laboratory, or via the submission of an accompanying application for a prospective Test Laboratory. The Test Laboratory may be internal, third-party or a Manufacturer Test Laboratory. If, at any time, the scope of an OIML Issuing Authority is not supported by an approved Test Laboratory for a category of instrument (listed in the OIML Issuing Authority's Declaration), the scope of the OIML Issuing Authority must be amended accordingly.	Management Committee online approval (Closing date 19 September 2024)
PD-07	7.2.1 a)		The subclause should be interpreted as applying at the time the testing took place. It should be read as follows: a) At the time that the original type evaluation took place, the Test Laboratory that conducted the testing was a Test Laboratory listed in the OIML-CS Declaration of any OIML Issuing Authority for the applicable category of measuring instrument;	MC approval of this edition of CID-01

Note: There are currently no clarifications or interpretations applicable to PD-01 [4], PD-02 [5], PD-05 [8], PD-06 [9], PD-08 [11] and PD-09 [12].
