## Item 4.1 Report on BIML Activities

## OIML website developments

The BIML Web Team has continued to develop the Website and has added new features over the past year, which has been a consolidation period following the very successful implementation of the new website.

| | |
|---|---|
| Creation of a set of CEEMS web pages (Countries and Economies with Emerging Metrology Systems) | 2015-07 |
| Reorganization of the Certificate System web pages for launch during the 2015 CIML meeting | 2015-10 |
| Development of a Workspace structure for projects that fall outside the scope of TCs/SCs | 2015-12 |
| Review and improvement of the CIML meeting registration module to incorporate the Conference | 2016-01 |
| Presidential Council Workspace: Creation of a new secure area for the confidential use of PC Members. Database created, organization by meeting date, archives of previous meetings, possibility to upload documents and to comment and vote on them | 2016-03 |
| Porting of the old Certificate System database and management console to the new database; implementation of a new invoicing system in conjunction with the OIML accounting package | Ongoing (2016-10) |
| OIML Certification System Management Committee Workspace: creation of a new secure area for the confidential use of MC members | Ongoing (2016-10) |
| Creation of a mirror system, including the website, to use as a backup and for testing purposes | Ongoing (2016-10) |
| Overhaul of the DCMAS website, for which the OIML currently holds the secretariat | Ongoing (2016-10) |

A major brainstorming session will be held at the BIML in November 2016 with a view to improving and further expanding the site facilities and consolidating the work done.

Comments from OIML Members are welcome and will be taken into account during this review process.
