

Sistema Interamericano de Metrologia (SIM)

Legal Metrology Working Group Activities in 2017

**Juan Carlos Mateus Sánchez, Ph.D.
OIML Assignee for Brazil**

Introduction

- In 2017 the coordinator of SIM Legal Metrology Working Group (LMWG) changed.
- Mr. Raimundo Alves de Rezende from Brazil was elected to this position, substituting for Mr. Emilio Löbbe from Argentina.
- The Initial plan was to organize 2 training courses for SIM metrology staff:
 - Catch-weighing Instruments
 - Grain Moisture Meters

Grain Moisture Meters Seminar

Seminário

Desafios e Impactos do Controle Metrológico de
Medidores de Umidade de Grãos

7 A 9 DE AGOSTO DE 2017

FOZ DO IGUAÇU - PR

- Between August 7th to 9th, Inmetro organized the Seminar “Challenges and Impacts for Metrology Control of Grain Moisture Meters” in the city of Foz de Iguazu – Paraná, Brazil.
- More than 70 participants attended the Seminar, including participants from 8 SIM countries and the other participants from Brazilian manufacturers and metrologists from different states of Brazil.

Future Activities

- Organize a Training Course or Seminar on Catch-weighers, probably in Panamá
- For 2018, we would like to propose the following training:
 - Combating Electronic Fraud in fuel dispensers
 - Software requirements and control for measuring instruments
 - EMC requirements for the type approval of measurement instruments
 - Other training as needed.

Regional Legal Metrology Organizations Round Table

Cartagena de Índias, Oct. 9th, 2017
