

OIML Certification System (OIML-CS)

OIML-CS and the RLMOs

RLMO Roundtable
Cartagena, Colombia
9 October 2017

Roman SCHWARTZ
Vice-President of PTB and CIML

OIML Certification System (OIML-CS)

OIML-CS and RLMOs

Some ideas for discussion (1):

- **Awareness raising:**
RLMOs could take up information about the OIML-CS (status, progress) as a regular item on their meetings agendas.
- **(Potential) Issuing Authorities:**
Require accreditation or peer assessment to get (maintain) their status
> RLMOs could help identifying technical experts for certain categories of measuring instruments.

OIML Certification System (OIML-CS)

OIML-CS and RLMOs

Some ideas for discussion (2):

- **Utilizers and Associates:**

RLMOs could encourage and support potential Utilizers and Associates in their region to make use of CS Certificates.

- **Management Committee:**

Representatives from Organizations in Liaison may, with the agreement of the Chairperson, attend MC meetings as observers and participate in other MC activities.

OIML Certification System (OIML-CS)

OIML-CS and RLMOs

Some ideas for discussion (3):

- **Intercomparisons or proficiency testing:**
RLMOs could be involved to support (regional) intercomparisons for certain measuring instrument categories under the OIML-CS
(e.g. weighing instruments, water meters, etc.)
