

52nd CIML Meeting – Working Document

Additional Meeting Document

52-CIML-AMD-01

2017-08-08

Agenda item 12.1

**Report by the Chairperson of the Project Group
on the revision of OIML B 6:2013**

Additional Meeting Document 52-CIML-AMD-01

Item 12.1

Additional report by the Chairperson of the Project Group on the revision of OIML B 6:2013

As explained in Addendum 12.1, responses from the Project Group on a US proposal for separating the periods for comment and voting were evenly divided and it was therefore proposed that the CIML would be given the opportunity to choose between versions of the revised B 6-1 with and without changes to implement the original US proposal. Since then, the US has put forward a compromise approach which has the support of the Project Group (six members in favour, none against) which has now been included in a revised Final Draft Basic Publication which has been posted at <http://cartagena.oiml.org/ciml.html#drafts>.

This revised Final Draft is based on the clean version of the Final Draft previously posted and only includes changes to clause 5.10.2.3 as well as consequential changes to clauses 6.4.1.2, 6.4.1.3 and 6.10.3.2.

I therefore suggest that this is the version which the CIML should consider under item 12 of the agenda.
